

### *Who We Are*

We are a historical peace church. A secure and peaceful environment is important to us as are sociopolitical issues.

We baptize people who request baptism upon their confession of faith.

We strive to live according to the words of Jesus and refuse to take an oath.

As a free church we are independent from the German government. We do not receive public funds and have our own administration. All important decisions are made at membership meetings.

### *Church Services*

### *Our History*

As Mennonites, we stand in a long tradition. Our history has its roots in the year 1525 when the Anabaptist movement developed along side the Swiss reformation. The name "Mennonites" is derived from Menno Simons, a Dutch priest who assembled various groups of Anabaptists.

Because State and Church feared that they would lose their monopoly and authority, Anabaptists were persecuted for many years. As a result, numerous Mennonite families made their new home in the Palatinate region as well as in North America.

The Mennonite Church at the Weierhof was founded in 1682 and currently counts 300 baptized members.

Today, there are 1.6 million Mennonites in 80 countries worldwide.

We are an open -door church and welcome everyone who is interested in joining us on our journey.  
We share joys and sorrows and seek ways of peace.  
We are connected with other Christian churches by our faith in God, Jesus Christ, and the Holy Spirit.
